

SPORT

GO ?

PLAY ?

DO ?

We use **GO** for sports that end in -ing.

For example (go fishing, go running, go swimming...)

We use **PLAY** for sports that are games and are played with a ball (Except ice hockey and badminton, because they are played with a puck and a shuttlecock).

For example (play football, play volleyball, play ice hockey...)

We use **DO** for individual sports that are usually done in the gym.

For example (do yoga, do aerobics, do martial arts...)

Attention!

With golf we can use GO (golfing) and Play (golf).

With boxing and weightlifting we use DO.
